

Online Conduct and Financial Policy

MathVantage Corporation, a private innovative and creative math school in Hawaii, offers courses and private classes in a conducive environment to students who are gifted in mathematics and want to study calculus in the early years of high school or who wants to overcome math anxiety with a solid math background to pursue a college degree.

I. MathVantage Online Courses.

Online Courses:

- Online course is a popular option because students can learn the lessons in their own pace, and it is the most affordable option. Total price of any online course is only **\$20 plus tax per course**, including the MathVantage book (PDF - File) .
- The material is self-explanatory, but Prof. Patrick incentivizes its students to discuss its contents with friends, parents, and professors. The MathVantage collection is an affordable opportunity to achieve a solid math background in a short period of time. (Every lesson or exam takes 1 or 2 hours to be finished)
- Prof. Patrick Chevalier will explain all math concepts and solve all Examples and Exercises in each MathVantage book.
- MathVantage Corp. is doing its best to release its online courses as soon as possible.
- The updated online course availability are:

Book 0: Arithmetic (Available)

Book 1: Algebra I (Available)

Book 2: Algebra II (Available)

Book 3: Trigonometry (Available)

Book 4: Plane Geometry (Available)

Book 5: Solid Geometry (Available)

Book 6: Analytic Geometry (Available)

Book 7: Calculus - Limits (Available)

Book 8: Calculus - Derivatives (Available)

Book 9: Calculus - Integrals (Available)

Book 10: Math - SSAT/ACT - College Prospective (Available in Dec 2026)

Book 11: Statistics and Probability (Available in Dec of 2026).

PS: MathVantage Corp. is doing its best to release its online courses as soon as possible.

II. Payments / Refund Policy

The parent, guardian, or 18-years-or-older student need to create an account, register on available online courses and set up one-time payment. There is only one payment that it can be made by national or international credit card, US bank account, or mailing a US check to the school.

MathVantage Online offers a highly affordable service; however, each student's account is unique and non-transferable, and NOT refundable. MathVantage reserves the right to terminate any account that is accessed by multiple users, including family members, friends, and colleagues.
